

DAVE'S WORLD

HEATING & COOLING

Awesome!

COIL TO COIL WARRANTY

WHAT IS IT?

Our BEST warranty. It guarantees you are fully covered for parts, labor, and the recommended biennial cleaning (every 2 years). And in the event of a possible, although unlikely, mechanical or electrical issue, we cover that, too! (Does not include any optional system treatments such as mold control or disposable filters).

ELIGIBILITY

Upon the purchase of the warranty, the product must be in good working condition. Warranty must be purchased within 1 year of the original installation date and the policy is retroactive to the date of installation. Model and serial number must be legible and Dave's World reserves the right to inspect the product at any time to determine eligibility for coverage. Purchase price subject to change without notice. All covered products must have been purchased from and installed by Dave's World.

WHAT'S NOT COVERED?

Repairs due to weather damage and other acts of God, such as ice, salt from the ocean, water damage, wind, lightning; power surges, brownouts; damage caused by pets or wildlife; neglect from not maintaining the equipment, including snow build-up or other recommendations made by the manufacturer; or repair of any optional accessories (condensate pumps, modems, add-on controls or air purifiers, weather caps, etc.)

COVERAGE LIMITS

There are no limits to the number of claims that can be made; however, the limit of liability is the replacement cost of like and kind equipment during the term of the agreement. In other words, if it costs more to repair the unit, we can choose to replace the old unit with a new unit at our discretion. A new unit might be slightly different in appearance but will have the same quality and performance as original.

Warranty is fully transferrable for a nominal fee. See store for details.
